About the Book

Human physiology is the science of the mechanical, physical, and biochemical functions of humans. Physiology is the most fascinating and ancient branch of science. It unfolds the mystery of complicated functions of the body system and individual organs in the body. The basic physiological functions include, provision of oxygen and nutrients, removal of metabolites and other waste products, maintenance of blood pressure and body temperature, locomotor functions and sensory functions, reproduction and intellectual functions like learning and memory. Ample illustrations in the book briefly provide all the aspects of Human Physiology.

Students pursuing Nursing, Physiotherapy and Biotechnology Engineering courses will find this book very useful.

Salient Features

Salient Features:

- ▶ Explains the various aspects of human physiology which includes skeletal system, nervous system, respiratory system, circulatory system, endocrine system, reproductive system, digestive system, and excretory system.
- ▶ Every chapter begins with an introductory overview of the system followed by detailed exposition on each of the components parts.
- ▶ Includes labelled diagrams to explain each part of the human body appropriately.

Table of Contents

- ▶ Skeletal System
- ▶ Nervous System
- ▶ Respiratory System
- ▶ Circulatory System
- ▶ Endocrine System
- ▶ reproductive System
- ▶ Digestive System
- ▶ Excretory System

About the Author

H.S. Ravi Kumar Patil :- Ravikumar Patil H.S. is Asst. Professor and Head, Department of Biotechnology, GM Institute of Technology, Davangere, Karnataka. He obtained his M.Sc. in life science and Ph.D. in Environmental Science from Kuvempu University, Shimoga. He has been teaching and conducting research for the past 15 years. He has also published 10 papers in national and 6 papers in reputed international journals.

H. Gurumurthy :- Gurumurthy H. is Lecturer, Department of Biotechnology Engineering, GM Institute of Technology, Davangere, Karnataka. He has specialization in Life Science and PGD in Bioinformatics. He has been teaching and conducting research for the past 6 years. He has also published 4 papers in national and 3 papers in reputed international journals. He is pursuing Ph.D. from Kuvempu University, Shimoga.

H.K. Makari :- Makari H.K. is Lecturer, Department of Biotechnology Engineering, GM Institute of Technology, Davangere, Karnataka. He has specialization in Biotechnology. He obtained his M.Phil in Biotechnology with specialization in Phytochemistry. He has been teaching and conducting research for the past 6 years. He has also published 5 papers in reputed national and 5 papers in international journals. He is pursuing Ph.D. from JNTU Hyderabad.

S.V. Sowmya :- Sowmya S.V. is a graduate in Biotechnology Engineering from GM Institute of Technology, Davangere, Karnataka. She has been awarded National level Intel Technology Award.
