

Instrumental Methods of Analysis in Biotechnology, 1/e

Dinesh Kumar Chatanta & Prahlad Singh Mehra

2012	240 pp	Paperback	ISBN: 9789381141380	Price: 345.00
------	--------	-----------	---------------------	---------------

About the Book

Instrumental Methods of Analysis in Biotechnology is an attempt to give an overview of instrumentation and techniques used in biotechnology and other related fields of biological sciences.

This book also discusses the various approaches used in determination of microbial growth with emphasis on FACS and Coulter counter techniques.

This book serves as a valuable source of information for students, teachers and researchers pursuing biotechnology and other biological sciences.

Salient Features

- ▶Covers the various types of microscopes, centrifugation techniques used in separation of biomolecules, chromatographic techniques used in separation of biological molecules with special reference to HPLC and GC techniques.
- ▶Covers the techniques used for purification of nucleic acids, PCR techniques and various electrophoretic techniques.
- ▶Focuses on various spectrophotometric techniques used in biochemical analysis and Mass spectroscopy covers the principle and applications of Raman, Infra-red spectroscopy, NMR, ESR and Magnetic Resonance Imaging (MRI).
- ▶Includes Radioisotopic techniques such as GM and Scintillation counters and RIA, ELISA. This book also discusses the various approaches used in determination of microbial growth with emphasis on FACS and coulter counter techniques.

Table of Contents

- ▶Microscopy
- ▶ Centrifugation
- ▶ Chromatography
- ▶ Isolation and Purification of Nucleic Acids
- ▶ Electrophoresis
- ▶ Polymerase Chain Reaction (PCR)
- ▶ Spectrophotometry
- ▶ Mass Spectrometry
- ▶ X-Ray Diffraction
- ▶ Radioisotope Techniques
- ▶ Determination of Microbial Growth
- ▶ References
- ▶ Index

About the Author

Dinesh Kumar Chatanta :- Dinesh Kumar Chatanta is Associate Professor, Shoolini University of Biotechnology and Management Sciences, Solan, H.P.

Prahlad Singh Mehra :- Prahlad Singh Mehra is Assistant Professor, Abhilashi College of Pharmacy, Mandi, Himanchal Pradesh. He obtained his B. Pharmacy degree from Shri Guru Ram Rai Institute of Technology and Science, Dehradun and M.Tech. in Biotechnology from West Bengal University of Technology, Kolkata. At Present he is involved in teaching Pharmaceutical Microbiology and Pharmaceutical Biotechnology.

He has published research papers on journals of national and international repute, viz., Journal of Ethno pharmacology (Science Direct), Current Cardiology Review (Bentham Science) and Journal of Biological Sciences (Online). He has also participated in various symposia/workshops on pharmaceutical sciences and biotechnology. His area of interest are fermentation technology enzymology, molecular biology and rDNA technology.
