About the Book

The present book provides an exposure of the Environmental Impact Assessment (EIA) principles and procedures. Its focus is on the methodology of the EIA so that it becomes a viable application oriented exercise. Major dimensions of environmental pollution like air quality, noise, water quality, soil and geology, aesthetics and socio-economic concerns are covered in this book. Measurement of environmental indicators and economists approaches of EIA are also described. The methodology highlighted in the book can also be applied to several other environmental issues.

The book is useful to advanced graduate students of engineering and sciences and post-graduate students of economics, management and of other disciplines who are part of project planning, implementation, operation and other related decision-making.

Salient Features

- ▶ Covers a wide aspect of Environmental Impact Assessment (EIA) principles and procedures.
- ▶ Focuses on the methodology of EIA. Discusses a few case studies in this context.
- ▶ Covers various aspects of environmental pollution like air quality, noise, water quality, soil and geology, aesthetics and socio-economic impacts.
- ▶ Provides annexures at the end of the book including forms, reports, guidelines, and standards as a guidance of assessment of baseline components and attributes related to EIA.

Table of Contents

1. General aspects of EIA
2. EIA in india
3. Base information approach
4. Identification, prediction and assessment of impact
5. Decision-making and uncertainties
6. Monitoring
7. Case studies
8. Simulation Annexure i: Form 1 (application for obtaining EIA clearance Annexure ii: A compilation of legal instrument Annexure iii: General standards for discharge of environmental pollutants Annexure iv: Pre-feasibility report: points for possible coverage Annexure v: Types of monitoring and network design considerations Annexure vi: Guidance of assessment of baseline components and attributes Glossary Index.

About the Author

N.S. Raman :- N.S. Raman, Deputy Director & Head, Environmental Audit Cell, National Environmental Engineering Research Institute, Nagpur, India

A.R. Gajbhiye :- A.R. Gajbhiye, Head, Dept. of Civil Engineering, Yeshwantrao Chavan College of Engineering, Nagpur, India

S.R. Khandeshwar :- S.R. Khandeshwar, Professor, Dept. of Civil Engineering, Yeshwantrao Chavan College of Engineering, Nagpur, India
