

21. Retailer's Optimal Ordering Policies for Deterioration Items Under Trade Credit Policy in a Supply Chain System
 22. Genetic Algorithm Based Approach For Unbalanced Assignment Problem
 23. Managing Launch Time of Successive Industrial Technologies
 24. Dissimilarity Measures for Refinement of Clusters Based on Page Access, Time and Session Weight
 25. Multi Criteria Based Launch of a New Product
 26. Design Optimization of Post-core Restored Endodontically Treated Human Teeth Using Finite Element Method and Taguchi Methods
 27. Testing-Domain Based SRGM for Distributed Environment Incorporating Two Types of Imperfect Debugging

About the Author

P.K. Kapur :- Prof. P. K. Kapur is Director of Center for Interdisciplinary Research, Amity University, Noida and former Head of the Department of Operational Research and former Dean of the Faculty of Mathematical Sciences, University of Delhi. He has been the President of Society for Reliability Engineering, Quality and Operations Management (Regd.) since 2000 and former President of Operational Research Society of India. He obtained his Ph.D. degree in Reliability Theory (Operational Research) from University of Delhi in 1977. He has published extensively in Indian journals and abroad in the areas of marketing, hardware reliability, optimization, queuing theory and maintenance and software reliability (more than 300 papers). He has published two books, namely, Contributions to Hardware and Software Reliability Singapore: World Scientific, 1999 and Software Reliability Assessment with OR Applications (Springer, UK, 2011).

Ompal Singh :- Dr. Ompal Singh is Associate Professor, Department of Operational Research, and Deputy Proctor, University of Delhi. He is lifetime member of Society for Reliability Engineering, Quality and Operations Management (Regd.). He obtained his Ph.D. degree in Software Reliability (Operational Research) from the University of Delhi in 2004. He has published extensively in Indian journals and abroad in the areas of Marketing, Software Reliability and Optimization. He has more than 14 years of experience in teaching, research and consultation in the area of Data-Handling, Data-Analysis and Modeling in the various fields of Operational Research. Dr. Ompal Singh has guided seven Ph.D scholars and four M.Phil research scholars in Operational Research. His areas of interest include Software Reliability, Optimization, Innovation Diffusion Modeling and Marketing. He has participated in several conferences of national and international repute.

Sunil Kumar Khatri :- Prof. Sunil Kumar Khatri is Director, Amity Institute of Information Technology, Amity University, Noida, India. He is a Fellow of IETE, Sr. Life Member of CSI (India), IEEE (USA), IASCSIT (Singapore) and Member of International Association of Engineers (IAENG), Hong Kong. He is Vice-Chairman and Chairman-Elect of CSI Noida Chapter and Secretary in Society for Reliability Engineering, Quality and Operations Management (SREQOM), India. He has been conferred IT Innovation & Excellence Award for Contribution in the field of IT and Computer Science Education by Knowledge Resource Development & Welfare Group at IIT, Delhi in 2012. He has also been conferred with the award for "Exceptional Leadership and Dedication in Research" during the 4th International Conference on Quality, Reliability and Infocom Technology in the year 2009. He has the recognition of being listed in Marquis Who's Who continuously for the last five years. He has edited four books, six special issues of international journals, written chapters and published/presented several papers in international and national journals and proceedings. His areas of research are Software Reliability and Testing, Data Science, Network Security, Soft Computing and Pattern Recognition.
