About the Author

Vandana Rao :- M. E. (Ind. Met.), Ph.D. in process metallurgy from The M. S. University of Baroda. Presently, Associate Professor in metallurgical and materials engineering department in The M. S. University of Baroda. In a career span of 23 years she has guided more than 30 post graduate students and many under graduate students as well. She has published more than forty technical papers in reputed national and international journals and has authored a book on "Development of magnesium alloys for automobiles" jointly with Miss. Sonam Patel. Her areas of interest include mineral dressing, ceramic & composite materials, powder metallurgy, iron making, materials characterization, failure analysis and materials science.

Avinash Lele :- M. Tech. (Ext. Met.) from IIT, Bombay has 39 years of teaching experience in metallurgical and materials engineering department in The M. S. University of Baroda. Presently he is visiting professor in the said department. He has published forty plus technical papers in reputed journals and has co-authored a book on "Metallurgical thermodynamics, kinetics and numericals". His areas of interest are process metallurgy including principles of extractive metallurgy, ferrous and non-ferrous metal extraction, mineral processing, and analytical techniques in metallurgy, powder metallurgy, ceramics and materials science.

Sonam Patel :- M. E. (Mat. Tech.), presently doing Ph.D. in metallurgical and materials engineering department in The M. S. University of Baroda. Currently, she is working as a Lecturer in Metallurgy Department, Dr. S. & S. S. Ghandhy College of Engg. & Tech., Surat. She has published ten papers in reputed journals and co-authored above stated book with Dr. Vandana Rao. Her areas of interest include materials science, ceramic & composite materials, non-ferrous metals, mineral dressing and powder metallurgy.
