Barbara Hanfstingl :- She holds a Diploma in Psychology (University of Vienna), Propaedeutic studies in Psychotherapy, and Doctoral graduation in Psychology (Alpen-Adria-Universität Klagenfurt). She is presently working as Associate Professor at Alpen-Adria-Universität Klagenfurt, Austria. Her scientific work started during her basic studies in Psychology. For more than ten years she worked on research projects addressing developmental processes of families which kindled her interest in human motivation and personality development. Later, she elaborated the psychosociogenetic epistemology in order to prevent déjà-variables in psychological research and increase content validity of psychological constructs regarding personality, motivation, or self-regulation. Her further research interests are psychological resilience, action research and Lesson and Learning Study. Dr Barbara Hanfstingl delivered a Keynote address at the 3rd InSPA National conference at NIEPMD, Chennai in November 2013 and was very much impressed by InSPA activities. She is instrumental for many innovative projects in the University of Klagenfurt, Austria.
