About the Book

The book on *Bioresources, Biodiversity and Therapeutics* has been conceptualized to focus on diverse domains, written by authors with expertise in diverse domains of biotechnology and life sciences.

Approaches to develop sustainable society, preventing environmental deteriorations, emerging and lifestyle-related diseases, new diagnostics tools, fortified and nutrition-rich food for the growing global population, are some of the key questions that are being explored by global scientific community. The growing economic and societal concerns demand alternative strategies and scientific solutions.

While many approaches exist, biotechnology based solutions have been shown to be sustainable in the long run. Various strategies are proposed in this book based on the research carried out to address these issues. Other emerging areas that may play a significant role in further fostering the research includes bio-therapeutics, nanotechnology, public health, and entrepreneurship.

The book caters to an audience of graduate, post graduate, intellectuals, technocrats, academicians and researchers on a global platform. Authors from different organizations, with multitude of expertises have contributed to the book. The chapters are written in a lucid way to be easily understood by readers. The book will serve as a ready reckoner for academicians and researchers, world over.

Table of Contents

1. Impact of Chemical Fertilizers on Biome

Preeti Thakur, Pammi Gauba

2. Zero Liquid Discharge for Wastewater Management

Arushi Saxena, Pammi Gauba

3. Chitosan and their Derivatives in Wastewater Treatment

Raziur Rahman, Shalini Tyagi, Garima Mathur

4. Probiotics: An Essential Approach for Maintaining Healthy Human Gut

Kanika Sharma, Smriti Gaur

5. High Throughput Screening and Drug Discovery

Nidhi Srivastava and Indira P. Sarethy

6. Bioprospecting: The Screening Steps in the Search for Pharmacologically Important Natural Products

Nidhi Srivastava and Indira P. Sarethy

7. Paraben: A Boon or Bane for Society

Pooja Upadhyay, Pammi Gauba, Ashwani Mathur

8. Hydroponics: Current Prospects and Future Perspectives

Akanksha Aggarwal, Ashwani Mathur

9. Withania Somnifera: A Review on Ethano-Medicinal Properties and Withanolide Biosynthesis

Shalini Tyagi, Garima Mathur

10. Kefir: The Upcoming Fermented Milk Generation

Akansha Chaurasia, Rishibha Gupta, Smriti Gaur

11. Recent Trends in Production of Bacterial Cellulose Composites and Their Applications

Jasveen Bhasin, Ankita Vaishali, Anirudh Bhatia, Sumbul Fatima, Garima Mathur

12. Effects of Hormones on Food Intake

Shubhangi Mathur, Girisha Maheshwari, Pammi Gauba

13. Commercial Application of Pectinases

Sonia Sharma, Neeraj Wadhwa

14. Stevia: An Underutilized Sweetener

Shalini Tyagi, Garima Mathur

15. Phytotherapy: A Safer Alternative of Available Medicines in the Management of Urolithiasis

Chetna Faujdar; Priyadarshini

16. Biological Pathway and Diseases

Shikha Mishra; Priyadarshini

17. Role of Hyperoxaluria and Calcium Oxalate Crystals in Urolithiasis

Chetna Faujdar; Priyadarshini

18. Alkaloids as Central Nervous System Stimulants

Shriya Agarwal, Prakhar Agarwal, Mugdha Agarwal and Manisha Singh

19. Role of Environmental Pollution Causing Multiple Sclerosis and Advances in Therapeutics

Sakshi Singh Manisha Singh and Rachana

20. Crispr/cas9: A New Therapeutic for Cancer and Genetic Disorder

Maria Ishaque, Amita Tiwari, Chakresh Kumar Jain

21. Drug Resistance in Cancer

Pankaj Kumar Tripathi, Chakresh Kumar Jain

22. Green Seaweeds as Potential Feedstock for Bio-Based Products

Nitin Trivedi

23. Waste Water Management using IoT (Internet of Things)

Jatin Aggarwal, Ria Singh, Pooja Upadhyay, Akanksha Aggarwal, Ashwani Mathur

About the Author

Pammi Gauba :- Dr. Pammi Gauba, joined the Department of Biotechnology at JIIT in 2010. She has experience of 23 years in teaching and research since 1988 at different institutes in India and abroad. Prior to joining JIIT She worked as an Adjunct Professor in Marymount College, Arlington, USA and NOVA College, Alexandria, USA.

Ashwani Mathur :- Dr. Ashwani Mathur has been working at Department of Biotechnology, JIIT since December 2010. Before joining JIIT, Dr. Ashwani Mathur worked for 18 months as Senior Lecturer at Department of Biotechnology and Bioinformatics at JUIT, Wagnaghat, Dist. Solan, Himachal Pradesh. He has done his masters (M.Sc) in Biotechnology from Panjab University, Chandigarh in 2002, and was university rank holder.

Indira P. Sarethy :- Indira P. Sarethy is Professor in the Department of Biotechnology, and Associate Dean - Online Teaching. She has been in teaching and research for twenty years, working at Lady Doak College, Madurai, The Energy and Resources Institute (TERI), New Delhi and Amity Institute of Biotechnology, Noida before taking up the present assignment at Jaypee Institute of Information Technology, Noida. She has done her post-graduation and PhD from Madurai Kamaraj University (Madurai) on stress-related aspects using in vitro propagation systems of plants.
