

**Anup Aprem** :- is Assistant Professor at the Department of ECE in National Institute of Technology, Calicut. Prior to this, he was a postdoctoral researcher in the Applied Machine learning group at the University of Oxford. Anup holds a Ph.D. in Electrical and Computer Engineering from the University of British Columbia, Vancouver, Canada, an M.E. in Signal Processing from Indian Institute of Science Bangalore, and B.Tech in Electronics and Communication Engineering from College of Engineering Trivandrum (University of Kerala). Anup's research interests are broadly in statistical signal processing, stochastic decision making and Bayesian machine learning, with applications to social media, sensor and social networks and multi-agent systems.

**Sudhish N. George** :- is Associate Professor, Department of Electronics and Communication Engineering, National Institute of Technology Calicut (NITC), Kerala. Sudhish N George received his B.Tech. degree in Electronics and Communication Engineering from the M. A. College of Engineering (M. G. University), Kothamangalam, Kerala India, in 2004, M.Tech. degree in Signal processing from the College of Engineering Trivandrum (Kerala University) in 2007, and Ph.D. in Multimedia security from NITC in 2014. Since 2010, he has been a faculty in the Department His current research interests include Sparse Signal processing and Computer Vision.
